

ASEAN Lap HPB Conference 2020
2nd PAHPBS International Symposium
“*Expanding Frontiers, Optimizing Outcomes*”

20 July 2020

Dear Esteemed Faculty,

Re: 3rd ASEAN Laparoscopic HPB Conference ONLINE, *An Opus in 4 movements*

Greetings!

I hope this email finds you well. The Philippine Association of HPB Surgeons is happy to announce that we will pursue the hosting of **3rd ASEAN LHC 2020 online**. Due to the unprecedented challenges the world is facing from COVID-19 pandemic, we have moved the date to **August** in order to prepare a blended learning feast of asynchronous sessions combining case discussions on blogs, strengthened with on-demand didactics and live panel and video sessions on surgical techniques by experts. We will feature adaptation and diffusion of laparoscopic HPB surgery in Southeast Asia, and our neighbouring countries in Asia Pacific. The current trends and innovations will bring in the best HPB surgeons in the region and globally.

We are very honoured to have you with us for this landmark event. *Our goal is to bring together current trends and innovations by giving talks that are idea-focused, and on a wide range application & adaptation for a safe minimal access approach to HPB surgery, to foster learning, inspiration and stimulate discussions that matter through an online platform.*

Please record your presentation via Zoom and upload the file to PAHPBS drive (<https://bit.ly/aseanlhc2020>) We have sent you an instructional pdf kit entitled ASEAN LHC info for speakers to help you optimise settings for recording on zoom. Alternatively, we will be happy to have a session together and record it for you. Please give us your preferred time so we can schedule a recording with you. It will be great to prepare a talk of 15-20 minutes. This will be made available as on-demand webinar through our website to registered participants between August 1-15 only.

We strongly encourage speakers to convene with us and all the participants on the **afternoon of August 1 for the opening and keynote, Aug 8 (Hepatobiliary) and 15 (Pancreas) for the live interactive discussions** and a great showmanship as we close the event. We also extend the invitation for masterclass videos and to trainees for submission of e-posters via twitter @PAHPBS, video blog contest by uploading to PAHPBS FB page. Further information will be available soon on www.asean-lhc-ph.com .
